PROFESSIONAL EXPERIENCE

Framework Engineer | Quantiphi (Sep 2021 – Nov 2022)

- Provisioned secure cloud infrastructure on GCP and AWS using Terraform including VPC, Subnets, Load Balancers, IAM roles, and firewall rules.
- Designed and maintained CI/CD pipelines using Jenkins with automated Docker builds and deployments.
- Deployed containerized applications to Kubernetes clusters and managed Pods, Services, and autoscaling.
- Implemented role-based access control (RBAC) and applied least privilege principles in IAM configurations.
- Managed backup and artifact storage using GCP Artifact Registry and Cloud Storage.
- Monitored logs and system configurations to identify misconfigurations and security risks.

Intern – Framework Engineer | Quantiphi (Mar 2021 – Aug 2021)

- Assisted in building and maintaining CI/CD pipelines using Git, Jenkins, and Docker.
- Automated deployment workflows and branch-based release management.
- Gained hands-on experience with GCP services including Compute Engine, IAM, VPC, and Cloud Storage.
- Contributed to scripting and automation for deployment and monitoring tasks.
